## **UKCG HEALTH AND SAFETY CHARTER**

Working with their supply chains, UKCG member companies will take collective action to lead improvements in health and safety in construction. UKCG will report on its activities annually. Wherever possible UKCG will work with other industry bodies to drive change.

In particular UKCG members are committed to:

- Leading behavioural change on all our sites to eliminate accidents and work related ill health;
- Achieving a fully qualified workforce;
- Ensuring all supervisors on UKCG sites have the necessary skills to supervise effectively;;
- Consulting workers in a way that engages them in improving health and safety;
- Ensuring that safety critical workers are fit to work;
- Exchanging best practice and consideration of lessons learnt in order to direct collective action; and
- Taking collective action to drive industry improvement in the management of construction risks.
